## Advocacy

A client advocate is a person who assists clients in their recovery process by helping them navigate the AspenPointe Health Services system and connect with resources in the community including assistance with transportation, utilities, housing, food and other essential needs.

### Overview:

A client advocate is available to help clients navigate the AspenPointe Health Services system and connect with resources in the community. Advocates help clients progress in recovery by teaching clients how to independently access resources.

The advocate helps clients plot a course through the sometimes overwhelming challenges of day-to-day life and the numerous, complex systems available to support them in recovery.
