

ASPENPOINTE

SINCE 1875...

Enhanced Services-Children

Intensive therapy; case management; and advocacy.

Enhanced Services Therapy delivers intensive therapeutic support for children engaged in high-risk behaviors that require a higher level of care than traditional therapy. Scheduling includes 2 - 3 times per week of individual, family or group therapy and may include case management and or advocacy services in conjunction with therapy.

Case Management is the delivery of supportive and intensive coordination of service delivery and assurance of continuity and integration of services. Case management services are introduced to reduce the need for higher levels of care and are typically provided adjunctive to other treatment interventions. Activities address skills development for children and their parents, assisting the child and family in developing a natural support system, and coordinating with external providers.

Advocacy provides services with and behalf of families to address needs in schools, referral sources, and other community agencies.

After Hours Child and Family Clinical Support Line: (719) 237-7347
