## Family Services

Families in today's society are under a great deal of pressure and often lack adequate resources during times of need.

Families in today's society are under a great deal of pressure and often lack adequate resources during times of need. Many issues (divorce, unemployment, abuse, mental illness and environment) can affect the strength and health of the family unit, causing a ripple effect for all of its members.

Family services are provided within a family context and are culturally competent. The integrated approach engages the family in the healing and wellness process.

Since 1875, ASPENPOINTE has empowered clients, enriched lives and embraced purpose through individual and family services in mental health, substance abuse, employment & career development, education, housing, jail diversion & reintegration, telephonic wellness, and provider network services.
