Funding Stream

- Core Services does not pay for residential/inpatient treatment. However, State substance abuse funding is available and managed through AspenPointe Health Network.
- Some insurance companies may pay for residential/inpatient services for the treatment of drug and alcohol use and abuse. Individuals must contact their insurance company to verify drug and alcohol treatment coverage.
- Medicaid does not pay for residential/inpatient treatment services, except for pregnant women.
- If the case is open to the Department, insurance has denied payment, or the family has no insurance or resources, residential services may be funded through AspenPointe Health Network Managed Service Organization (MSO) dollars.

Definition of Service

- **Service goals are centered on promoting child and family safety and family protective capacity.**
- Level III programs offer organized treatment services that feature a planned regimen of care in a 24-hour residential setting. Treatment services adhere to defined policies, procedures and clinical protocols. They are housed in, or affiliated with, permanent facilities where patients can reside safely. (One of the purposes of these programs is to demonstrate aspects of a positive recovery environment.) They are staffed 24 hours a day.
- AspenPointe Health Network holds contracts with:
  - Level III.1: Clinically Managed Low-Intensity Residential Treatment
  - Level III.5: Clinically Managed High-Intensity Residential Treatment
  - Level III.7: Medically Monitored Inpatient Treatment may be a single case agreement based on the individual’s needs

Target Population

- Individuals who may benefit from Residential/Inpatient services have a diagnosable DSM-IV substance abuse or substance dependence disorder and meet ASAM PPC-2R criteria for Level III care.
Clinical Guidelines and Service Definitions
Residential/Inpatient Treatment Services - ASAM Level III
Continued

**Estimated Length of Treatment**
Residential/Inpatient treatment is based on the ASAM PPC-2R Level of Care criteria, client need and the treatment facility.

Typically: Level III.1 is 30 days
Level III.5 is 1-3 years
Level III.7 is 14 to 21 days.

**Access to Residential/Inpatient Treatment**
Client must be assessed by an Outpatient Provider within the AspenPointe Health Network Provider network to determine the most appropriate level of care based on the ASAM PPC-2R criteria. If the provider determines residential/inpatient services based on their assessment, is the appropriate level of care they must submit a Residential Placement Request V.4 to the Residential Care Coordinator at AspenPointe Health Network.

**Frequency of Services:**
Typically once a year, based on client need and the ASAM PPC-2R Level of Care criteria.

**Staffing:**
Not applicable.
